BETSY.

A social betting app to play with friends.
 Stadium energy, editorial discipline. The thrill of football told with the
 precision of a financial dashboard.

PASSION WITH

PRECISION.

BETSY is not a casino. It's a **competition between friends** that feels like a live match. Every screen must convey three sensations at once: **clarity** of information, **stadium energy**, and the **tension** of a decisive moment.

01 Stadium · not casino

Zero roulettes, zero gold sparkles, zero confetti. The language comes from football lived in: scoreboards, jerseys, the green of the pitch translated into electric lime.

02 Data legible at first glance

Odds, points and rankings carry the weight of a sports headline. Huge numbers, minimal labels, hierarchy without cognitive effort.

03 Social, not solitary

Your avatar first, your friends always close. Ranking, league and the 1v1 challenge are the emotional core — not a hidden extra.

FOUR ADJECTIVES. ONE SINGLE BLEND.

The design is born from the crossing of four characters. None wins alone: **electric** without being loud, **technical** without being cold, **sporty** without falling into brand cliché, **social** without looking like a social network.

ELECTRIC

01

Vibrant. Alive.

Neon lime, punctual glows, short and nervous transitions.

TECHNICAL

02

Precise. Mono.

Mono for numbers, constant margins, 4 pt scale without exception.

SPORTY

03

Bebas. Scoreboard.

Stadium display type, jerseys, counters always present.

SOCIAL

04

Close. Warm.

Avatars always visible, second-person copy, human scale.

⊕

Color states need an icon
Win / Loss / Arena always come with a label or icon, not color alone: color blindness must never break the ranking.

↶

Touch targets ≥ 44 px
Primary buttons 52 px tall; secondary chips 38–40 px; tabs with an invisible extended tap area up to 48 px.

ACTIVE STATE

LIME FILL 16%

- **Deep blacks & a single point of color.** Each image should carry one light source: lime for celebration, magenta for a duel, white for neutrality.
- **No vintage filters or heavy vignettes.** Grain is allowed; decorative textures are not.
- **Real people, not generic stock.** Visible faces, hands, sweat. Never shiny trophies or playing cards.
- **Landscape crop in cards, portrait in hero.** Aspect 4:5 in grids, 16:9 in headers, 1:1 only for avatars.

BETSY
